STRONG AND HIGHER

FRESH BULL NEWS WAS A STIMU-LANT TO THE STOCK MARKET.

Predictions of Outward Movement of Gold in Six Weeks-Local Markets Show Signs of Improvement.

At New York, yesterday, money on call was steady : 3 364 per cent.: last loan, 4;

closing, 4 per cent. Prime mer stile paper, 51/67 per cent. Sterling e ange was easier, with actual busines in bankers' bills at \$4.87%@ 4.87% for demand and \$4.85%@4.86% for sixty days; posted rates, \$4.87@4.88 and \$4.88%@ 4.89; commercial bills, \$4.85%.

Silver certificates, 67%@68c; bar silver, 67%c. At London bar sliver was 30 15-16d per ounce. Total stocks were 250,000 shares, including

the following: Sugar, 28,600; American Tobacco, 52,700; Burlington, 8,100; Chicago Gas, 18,100; Distillers, 3,300; General Electric, 6,-700; Louisville & Nashville, 21,500; Missouri Pacific, 11,200; Northwest, 3,000; Reading, 11,400; Rock Island, 5,200; St. Paul, 29,700;

United States Leather preferred, 7,400. Business after the holidays started in under the stimulating influence of higher prices for American stocks in London yesterday and buying orders for that account in this market, chiefly for St. Paul and Louisville & Nashville. This condition of affairs was mainly attributable to the conciliatory tone of the Queen's message in relation to the Venezuelan imbroglio. The local market, while somewhat less active than that of Tuesday, and irregular at exhibited an undercurrent of unpalatable to the professional bears and the bulls without stocks. Influences bearing on special stocks were the annual report of the American Tobacco Company, the decision at Albany favorable to the Chicago Gas Company in the Pitt-Barrows case, and a strong and higher market for domestic and foreign sugars. In the late dealings the market was stimulated by

enced judges of the commercial paper market predicted an easier turn, provided money rates continued on about the present basis. In purely speculative circles a pestone prevails on the subject of the probable actual results of the new government loan, and predictions of a resump-tion of the outward movement of gold, within six weeks or less, are freety made. The market opened fairly active and strong, with Tobacco conspicuous by an advance of 3 per cent, on the favorable exhibit of earnings for the past year in the face of the severe contest that has so long been waged with the plug tobacco manufacturers. The report, however, did not make clear the reason for the groomy stand taken by the management in regard to the last dividend. Other important, but less material, improvements occurred in Sugar, Chicago Gas, General Electric and Louisville & Nashville. Tobacco led the market in point of activity, and the extreme rise in it, as compared with Tuesday's

at erratic, but after that hour the entire at developed a decided upward tendency, which the grangers, coalers, Chicago Gas, Louisville & Nashville and a few other shares made the greatest progress. The news of the decision of the At torney-general of this State denying the motion for an injunction to restrain the Central Trust Company from participating in the consolidation of the Chicago Gas companies, carried the price of the stock up 31/4 per cent. New Jersey Central advancd 31/2 per cent., presumably on covering of shorts. The grangers and Louisville & Nashville gained 1@24, the last mentioned making the extreme rise. Missouri Pacific declined 1% per cent., and recovered al-most all of the loss without explanation.

Prices of government securities were shaded somewhat on trading, amounting to \$575,000. State issues were quiet, with only a sale of \$1,000 of Virginia centuries. LOCAL GRAIN AND PRODUCE. Trade Shows Improvement, but Could

Be Better-Prices Steady. While trade on the wholesale streets is some better than last week, there is still large room for improvement in most lines. Grocers, druggists and leather dealers report trade very satisfactory, and dry-goods men say that the last few days their business has been more satisfactory. It will be noticed that several changes were made in quotations yesterday, all declines. Staple groceries are very firm. Poultry comes in slowly and prices are strong. Eggs continue to come in freely and prices rule easy. Commission men still talk dull trade. The flour market is more active and prices firm at the revision of Tuesday. In other markets there is nothing new to note. The local grain market this week is dull.

BIDDING FOR WHEAT

LIVELY DEMAND AT CHICAGO CAUSED MAY TO JUMP UP 1C.

News Not Pronouncedly Bullish, but There Was a General Feeling that the Clique Wanted to Buy.

CHICAGO, Feb. 13 .- Wheat news to-day, though rather leaning toward higher prices, was not entirely responsible for the advance made. There was a general disposition to buy, and the effect was shown in the gain in the price of May wheat of a cent over Tuesday's closing prices. Corn and oats advanced about 4c each. Provisions are up sharply and show substantial

Wheat showed decided strength, and sold up nearly 1c from the close of Tuesday. Sweet Potatoes-Kentucky, \$2.50 per brl; At the start the feeling was somewhat Cobdens, \$3 per brl; Kansas, \$3.25 per brl. easier and there was a sale at 14c below easier and there was a sale at 4c below the close of Tuesday, but there was a good class of buying, and, with rather moderate offerings, the price was gradually advanced, and before noon the gain was over 1c. The early cable seemed weak, but the second one reported some improvement. to 16 lbs average, 71/sc; 8 to 10 lbs average, New York sent generous buying orders and a fair foreign demand was reported there, and the clearances from that port were reported at 265,000 bushels in wheat and flour. The local talent was largely on the buying side and nearly all the big speculators were said to be taking wheat very freely. The falling off in the receipts at week-and the fact that much of the growing wheat is unprotected by snow and lia-ble to injury from a sudden freeze, made shorts nervous, and, taken in connection with the strength displayed, caused a good deal of covering. The liberal local shipments by rail and action of the Western Freight Association in cutting the rates on wheat to Kansas points one-half, or 12 cents per hundred pounds, was also instru-mental in adding to the bullish sentiment. It was rumored that the big clique of operators which has been operating to depress the market for some days had secured satisfactory lines and was now working for an upward movement. May opened somewhat irregularly at about 1/4c lower, at 651/2@65%c, but then turned strong and went up gradually to 664.665%c split, reacting under some active realizing to 664c. The market kept strong during the last hour, mainly on predictions of colder weather, and there was active buying, largely to cover shorts. May sold up to 66%c, but eased off a fraction, finally closing steady

Corn was quiet, but strong, influenced by the strength in wheat, and was also helped by the storm, which is expected to cut off receipts. May opened unchanged at 29%c, advanced to 31%c, and reacted to 30%c. The market held steady and firm during the last hour, May closing at 30%c. Oats were quiet, but firm, and closed a shade higher. Sympathy with wheat was the main cause for the advance. May opened unchanged at from 20%@21c, sold up to 214c and closed at 2146214c.

Provisions opened firm at a slight advance and gradually worked higher. The strength displayed by wheat and the small run of hogs gave the market an unexpect-ed firmness. For May delivery pork closed at \$10.32½, against \$10 on Tuesday. Lard left off at 5.70c, as against 5.60c on Tuesday, and ribs at 5.37½c, compared with 5.20c. Estimates for Friday—Wheat, 200 cars;

Wheat-The wheat market was easy at the opening Thursday morning on account of cables, but firmed up immediately on the scarcity of offerings. The price current did not have any effect, but the forecast for cold wave probably had something to do with the advance in prices. The professional crowd seemed to fresh Western, 144/2015c. Cheese steady. be inclined to play for a rally even before the news warranting an upturn began to come in. The advance was helped by the action of the Western Freight Associa-300 tion, which yesterday cut the west-bound rates on wheat from here to Kansas points from 24c per 1,000 to 12c. This action, the association said, was taken because there was no winter wheat in Kansas this year. Northwest cars showed a falling off as compared with a week ago. Later foreign news was of a most en-couraging nature for holders. Private ca-Programme for the National Baptist

er prices to-morrow. Puts, 65%c; calls, 67%c; curb, 66%c. Corn and Oats-These markets to-day quiet and firm, but showed strength with wheat. Receipts were moderate, and the snow is liable to keep roads bad and prevent movement to any extent. Corn and oats closed above Tues-day's figures for all options. Provisions-The market for provisions opened at an advance, and showed remarkable strength during the session.

Armour was a heavy buyer of pork and Cudahy of ribs. The people who sold packing-house products so freely Tuesday were anxious buyers to-day. The market closed at the top for all commodities, and the estimates are small for Friday. AT NEW YORK.

Metals. PITTSBURG, Feb. 13.-The American Manufacturer, in its weekly review, will say to-morrow: There has been nothing particularly new shown in iron and steel markets during the past week, as the general conditions remain about as they were. This means that the trade is in something of a waiting condition, with no special movements shown. In some few lines prices show a weaker tendency, and generally the volume of trade is no larger than it has been for some weeks past. Buyers of pig iron are still holding off. Gray forge is quoted at \$11@11.25; No. 1 foundry, \$13@13.50; Bessemer, \$12.75@13. There is a good inquiry for finished iron and steel still reported, but the trade is not what it should be. CHAFING DISH COOKING.

Things That Can Be Prepared Right in the Parlor.

There is a charm about cooking with a chafing dish. It's so much like play. It looked so very easy, as Mrs. Ewing stood by the table in the Propylaeum yesterday and poured in a little bit of this and a little more of that, mixed it with her wooden spoon, and then raised the sauce with her spoon and let it drip back into the dish, in order that the class might see just how thick or thin it ought to be. The chafing dish, as most people know, is of silver or other metal and stands on three legs. part sets in a rim, and has a handle with which it can be lifted to and from the fire. There is a second dish, which also sets in the rim, and in which the first dish can be set. The under dish is to be filled with water, for a gentle cooking. The chafing dish was set on a large tray, for, as Mrs. Ewing said, "a lady told me once that she burned up a fine table cloth and two handsome napkins the first time she used her chafing dish." Mrs. Ewing said she would not teach the class how to make a Welsh rarebit and how to cook tripe until the men could be there. This extra chafing dish lesson will be given next Thursday evening at 8 o'clock. In addition to the extra chafing dish lesson, there will be another free-bread lesson next Monday afternoon at 2:30 o'clock, and it will be given in the assembly hall in order that all who

come may be accommodated.

In the chafing dish yesterday Mrs. Ewing

showed the class how to cook a veal chop;

one that a nice wife would cook for her

husband who comes home late at night."
The chop was about an inch thick and nicely trimmed. First she put on a trifle of sugar, then sprinkled it with about twice as much salt, dusted it with mixed red and white pepper, and dipped it in flour. In the hot chafing dish she put some clarified butter. When this was hot, she lifted out the under dish with the water and put the upper pan directly over the blaze. Then she put in the chop, browned it nicely on one side, and then on the other, clapped on the tight cover and left it to cook ten minutes, when it was perfectly done and was tender in every part. The next dish was panned oysters. Into the Jewels and valuable Trunks and Packages, etc. dish she put a lump of butter, some salt and pepper. When thoroughly hot she NEW ORLEANS, Feb. 13.-Cotton weak: turned in six large oysters, covered them closely and let them cook for about ten seconds. When the edges began to curl. the oysters were done and they were turned over on hot buttered toast. As she finished creaming the oysters, some one asked if the pepper ought to be left out for any one who was dyspeptic, and she answered, "No, I have always found that the worst dyspeptics are those who abstain from everything good and wholesome. Then, as she stood and stirred the mixture in the dish, she went on to tell of how she had been ill and reduced to eating graham bread, and came very near being an angel until she met a sensible doctor, who told her she was dying of starvation. The housekeeper knows how easy it is to have frizzled beef for lunch on "wash day," but the average housekeeper does not make her wash-day luncheon taste as well as Mrs. Ewing. The latter put some butter in her dish and when it was hot see dropped in dried beef as thin as a wafer.
"Not over two layers deep" was the precaution. She turned the beef in the butter and let it frizzle. As it frizzled it also sizzled and filled the room with a salty odor. When this was well along, she sprinkled in a teaspoon of flour and poured in a half cup of cream. "This, with a nicely boiled or baked potato, cooking school bread and good butter, makes a good enough lunch for any one," was the remark. Creamed chicken, a delicious way of using up some chicken "left-overs," was shown, and lastly mushroom sauce, which she termed "economical to eke out of odds and ends." First she put in the dish a small piece of butter and a teaspoon of flour. She mixed this and let it cook until it was "the color that used to be so fash-ionable for ladies' dresses, a nice ecru." Then she turned in a can of mushrooms and covered them up tight. Mrs. Ewing uses adjectives in her cooking lessons that are characteristic of the enthusiastic girl. The dried beef was exquisite and beautiful, the brown sauce handsome and the gravy lovely. The lesson to-day will be on "Soups and Sauces." There was a much larger class yesterday than the day before,

the chafing dish attracting many young ladies, buds of the season and many young married ladies.

FOUND DYING BY THE TRACK.

John Breen, Supposed to Be Deaf and

Dumb, Killed by an Engine.

An unknown man was found in an unconscious condition at the Union railway crossing at Pine street about 7 o'clock last night. He was first taken to the City Dispensary, and afterwards to the City Hospital, where he dled about 10:30 o'clock. The man's skull was crushed and he was otherwise injured. From a letter found in his pocket the dead man is supposed to be John Breen. The letter was addressed to 290 West Market street, the Friendly Inn, and was written by Joseph Loeb, of Columbus, O. The man was fairly well dressed. He appears to be about thirty-five years of age. As a paper tablet was found in one of his pockets with simple questions and answers written thereon, supposed to have been deaf and dumb. If this suposition is correct, it is likely the man was walking on the track and did not hear the engine which struck him.
